## What is an OhioLINK eTutoring asynchronous assignment review?

eTutoring is a collaborative between Ohio's two- and four-year institutions. Students from participating institutions may submit an assignment for a review from a tutor employed by one of our participating Ohio institutions. Students can expect to receive embedded comments and supportive suggestions to improve as a writer in return.

**PLEASE READ BEFORE SUBMITTING YOUR ASSIGNMENT:** Assignments submitted WITHOUT instructor guidelines or that do not meet the following criteria will be returned for additional information. If an assignment is returned to you, you are invited to resubmit your assignment once it meets the criteria for review, but you may lose your original place in line. Assignments that demonstrate consideration of eTutor feedback can be reviewed UP TO 3 times.

**ASSIGNMENT CRITERIA** OhioLINK eTutoring will review up to 5 pages of assignments that meet the following criteria:

1. Assignment must be assigned by an instructor for a grade in an undergraduate course that the student is currently enrolled in (excluding resumes and cover letters which are best reviewed by career services specialists as well as brochures, etc. that go beyond content review and require layout expertise).
2. The assignment must be in a Word document (.doc) format and include the instructor's assignment guidelines at the time the assignment is submitted.

**WHAT TO EXPECT** OhioLINK writing eTutors review up to 5 pages of a submitted assignment at a time, up to 3 reviews total, using a protocol that focuses on written encouragement and suggestions on improving written work. eTutor comments will be embedded in the assignment in bold text. By default, the first 5 pages of the assignment will be reviewed but students are welcome to request other pages instead, not to exceed 5 pages.

**HOW TO RESUBMIT YOUR ASSIGNMENT FOR REVIEW (AND WHEN)** Each assignment may be reviewed up to 3 times (total). Assignments that are resubmitted after a review must reflect thoughtful consideration of and appropriate revisions from feedback given in the previous review. To resubmit your assignment a second or third time please (re)select the original assignment found under "completed assignments" and complete the steps to resubmit the same assignment then click "resubmit for review". By default, the first 5 pages of the assignment will be reviewed with each submission regardless of the length of the assignment submitted. However, students are welcome to specify up to 5 different pages to be reviewed when resubmitting an assignment to have up to 15 pages of an assignment reviewed over the 3 submissions.

**ABOUT AI** OhioLINK will review all papers submitted for review that meet the criteria outlined above. For questions related to assignments submitted with the aid of AI, please review OhioLINK's AI policy: [https://www.ohiolink.edu/content/ohiolink\\_etutoring\\_and\\_ai](https://www.ohiolink.edu/content/ohiolink_etutoring_and_ai)
